

MAKE SURE YOU GET THE FULL PICTURE

We create your **personal health care plan**, which includes all possible steps to create your perfect oral situation. All **estimated costs** and **information material** will be presented to and discussed with you the same day of your first visit.

Included is:

- Pathological history.
- Status 21 (different intra-oral radiographs in different projections) 1 hour with an X-ray Technician.
- Clinical examination of the oral cavity, internal and external.
- Periodontal visit 1 hour with the Chief Dentist Dr. Giuseppe Latino.
- Orthodontical, Occlusal and Gnatological exam.

We do not stop at the aesthetic aspect. We also take care of the health of the oral cavity, which is key for the duration, and the success of every dental treatment.

Dr. Giuseppe Latino
Chief Dentist

The first visit in Oralee is attended by the Chief Dentist **Dr. Giuseppe Latino** or by his help **Dr. Giuseppe Pepe**.

Our doctors strictly follow protocols approved by internationally renowned specialists and are constantly updated thanks to prestigious specialization courses. In this way, **we guarantee the highest standards** of care for our patients.

Oralee is a Health Facility with 8 Dental Chairs, internal Radiology department provided with Dental CAT scan in 3D, Sterilization Department with the best equipment, dedicated and specialized Staff, 14 Employees and a first order medical staff composed of 18 individuals: Chief of Medicine, Chief's help, Consultants, Generic collaborators, Dental hygienists, aesthetic medicine, Anesthetist, Radiologist technician.

Our hospital-style systems **guarantee safety** in every aspect.

EMERGENCY DENTISTRY

If you experience a dental emergency, call us immediately. We will see you as soon as possible - 7 days a week.

DENTAL EXAMINATIONS

Part of your routine dental care, along with having your teeth cleaned by the hygienists, includes having a complete dental exam performed by our dentist.

FAMILY DENTISTRY

We are full service family and cosmetic dental

practice with a complete team of General Dentists, Hygienists and a Periodontist to meet all of your dental needs. To let all your family members take advantage of this we offer a 10% family discount.

HEALTH CARE PLAN

Our goal is to give you a complete and detailed picture of your oral situation. This allows us to have the best control of the therapies on the patients, decreasing the risk of incurring cardiovascular, gynecological and endocrinological pathologies.

TREATMENTS WE OFFER YOU

THE FIRST VISIT

The first periodontal visit is carried out by the Chief Dentist or by his Assistant and it takes two hours.

SLEEP APNEA

25% of men and 15% of women snore. Over forty years the percentage increase. The snoring could be a symptom of OSAS (Obstructive Sleep Apnea Syndrome).

ALL ON FOUR ALL ON SIX

Advanced Implantology offers multiple solutions also to edentulous patients.

HYGIENE AND PROPHYLAXIS

Oral hygiene is the focal point on which the health of the mouth is based.

PERIODONTOLOGY

Periodontal disease usually known as "pyorrhoea" affects the supporting tissues of the tooth.

PEDODONTICS

Pedodontics or pediatric dentistry is a dental specialty that deals with the care of infant and children's teeth.

ENDODONTICS AND CONSERVATIVE

Endodontics and conservative is the dental specialty concerned with the study and treatment of the dental pulp and tissues surrounding the roots of a tooth.

SURGERY

There are times when it is necessary to resort to oral surgery to resolve situations that can degenerate.

AESTHETIC MEDICINE

Aesthetic medicine deals with improving our physical appearance of our body which, over time, tends to make worse, due to ageing and to exposure to unfavorable environmental factors.

ORTHODONTICS

Orthodontics is the branch of dentistry that deals with the study, development and growth of the dentomaxillofacial apparatus and all structures related to it.

GNATOLOGY

Gnathology is the branch of dentistry that studies the functions of the stomatognathic apparatus, including therefore the masticatory muscles and temporomandibular joint.

AESTHETIC DENTISTRY

Aesthetic dentistry starts from the solution of oral problems such as fractures, dental caries, lack of teeth. Thanks to inlays, dental crowns and facets, it is possible to restore health and to improve aesthetic imperfections.

RADIOLOGY

The internal radiology department allows us to immediately have patient x-rays available.

WHITENING

Thank to the new professional whitening technologies, we offer our patients the results they want.

SEDATION

We offer our patient the possibility of undergoing conscious sedation procedures.

SURGERY REMOVABLE, FIXED AND IMPLANT PROSTHESIS

A dental prosthesis is an intraoral prosthesis used to restore intraoral defects, such as missing teeth or missing part of teeth. A dental prosthesis can be removable, fixed or implant.
